Cable Carrier Track (Cable Chain) — Technical Specifications & Catalogue

- Cable carrier track (drag chain) for CNC machines and other applications requiring flexible, protected cable and hose routing along a moving axis.
- Available in 5 sizes from 10mm to 65mm inner height, with bending radii from 28mm to 150mm to suit different travel and flex requirements.
- All items in stock. Each item includes one 1m (3.3') length of track plus 2 end brackets, ready for installation.

CABLE CARRIER TRACK (CABLE CHAIN)

CABLE CARRIER TRACK (CABLE CHAIN) Specifications

Part #	Inner H x W (mm)	Inner H x W (in)	Outer H x W (mm)	Outer H x W (in)	Bend Radius (mm)	Bend Radius (in)
1000020028	10 x 20	0.40 x 0.88	15 x 28	0.59 x 1.10	28	1.10
1800037038	18 x 37	0.70 x 1.46	24 x 47	0.94 x 1.85	38	1.50
2500057075	25 x 57	1.00 x 2.24	35 x 74	1.38 x 2.91	75	3.00
4900075125	49 x 75	1.90 x 3.00	67 x 102	2.63 x 4.01	125	5.00
6500100150	65 x 100	2.56 x 3.90	85 x 152	3.34 x 5.99	150	6.00

Price is for one piece of track, approximately 1m (3.3') in length, complete with 2 end brackets for mounting.
Track can be cut and linked to reach longer travel lengths.

Inner dimensions indicate usable cable routing space, outer dimensions indicate the overall track envelope.
Bending radius determines the minimum loop size at the moving end of the carrier.

All dimensions in mm | Prices in Canadian Dollars (CAD) | All items in stock, ships from Ontario, Canada
